A copy of the petition dated 4-5-45 is communicated to the Superintendent, Central Jail, Bellary for remarks. Copy of petition dated 4-5-45 from Sri. Jampoje.

I humbly beg to represent the hardship and the loss sustained by me during this Year (1944-45) for the supply of Raw Cut Wool to the Central Jail, Bellary.

I beg to state that I am an approved contractor for thesupply of Wool from 1-9-44 to 31-8-45. As there was over two months delay in the approval of my rate, I was at a loss whether to lay in a stock or not. On account of this I did not purchase wool at the season, I had to purchase the wool at a very higher rate varying from Rs.16-8-0 to Rs.17-8-0 for a maund of 25 lbs. If my tender had been accepted in time, I would not have been put to a lot of inconvenience and loss.

(2) The wool that is available in the local markets is only uncleaned wool and the rate funished by the Tahsildar is only for the uncleaned wool, whereas I am expected as per Tender Notice to supply cleaned wool. Here I purchased uncleaned wool tranship them to my godown, clean them and supply them to the Central Jail, Bellary, in small bundles as required by the Tender Notice. For the process of cleaning at my godown I am sustaining a loss from 5 to 6% togetner with cartage expenditure from my godown to Jail.

(3) In considering all thesexx above mentioned points, I request the

P.T.O.

the Inspector-General of Prisons, to be generous enough to grant me compensation for the loss sustained.

jails – Contracts – 1944-45 – Supply of wool to the Central jail Bellary – Payment of compensation.

From the I. G. of Prisons, No. R. Disc. 711/A.3/45 dated 26-8-46.

The I. G. of Prisons has submitted for orders of government the claim of the contractor Sri N. Jampoya Rao who supplied wool to the Central jail, Bellary for payment of compensation for the loss sustained by him in respect of the supplies made during 1944-45. The I. G. has reported that the contractor has sustained a loss of Rs. 10,628/-

2/. The question whether any general orders should be issued in regard to payment of compensation to contractors supplying jails, Borstal and Certified schools during 1944-45 was considered and it was decided that, as there was neither a steady increase nor a violent rise in prices during the year but that, on the other hand, in many cases there was a fall in prices or the prices were fluctuating it was not necessary to issue general orders and that each claim (weight) be considered on its merits as it arose. The first case of compensation in respect of supplies made during 1944-45 which was disposed of related to the junior Certified school, Rampet. The claim for payment of compensation was disposed of in accordance with the instructions vide Memo No. 13581/45-2 Home, dt 23-5-45. A number of claims were subsequently disposed of with reference to those instructions.

3/. The statement at p 1 of (J) has been prepared in accordance with the instructions referred to in para 2 above according to which the compensation to which the contractor is eligible works (wrongly) to Rs. 16,628/-. The I. G. has not stated whether wholesale or retail rates have been taken into account in preparing this statement. From (A) at p 6 of (A) it would appear that wholesale rates have been taken into account.

4/. The contract rate per cwt wool was Rs. 14/- per 25 lbs and the average market rate at the time of auction worked out to Rs. 12-12-0 per 25 lbs. The

The contract rate was higher than the (at the time of auction) market rate and the man should have made some profit. Claim be rejected. /

This is a case for compensation in this case as the price during the whole contract period was very much higher than when the tender was made. Compensation may be allowed

Please see the notes on the 1-2 above

According to Memo No. 135-81-C/45-2/S dated 23.5.45 ..... reference to which claims for compensation relating to the contracts for 1944-5 are examined, compensation should be allowed when the market rate at the time of the supply exceeded by 20% the contract rate or the market rate at the time of auction, whichever was higher.

In this case, the rates were as shown below:-

Contract rate Rs 14-0 for 25 lbs. of wool.

Market rate at the time of auction (average) Rs 12-12-0

Market rate (average) during the time of supply Rs 17-4-0

It will be seen that the market rate at the time of supply exceeded the contract rate by 23%. The claim for compensation seems therefore to be admissible.

17-4-0 - 14-0 = 3-4

$\frac{13 \times 100}{14} = 23.2\%$
